Hi everyone ☺

For our introductory discussion next week, I suggest reading **Race and EJ in the United States** – this is a 1993 article authored by Dr. Robert Bullard and provides a good basic understanding of the field of EJ. I've also detailed below, other informative articles for reference. If time permits also read the second article, it is authored by Bullard and others on the WHEJC; and third article authored by our own Charles Lee. The last reference is a lengthy comprehensive report (200 pages) that is frequently cited with respect to EJ and good for browsing.

Enjoy!
